TOOLS

PROFILE

Hello, my name is Jimboy Cervantes. I am 23 years old and have hobbies in photography, videography, video editing and graphic designing. I am a photographer with 5 years of experience as macro photography, landscape photography and portrait photography. I also have 6 years of experience as a video editor, videographer and graphic artist. I started my career as a photographer since I was 19 years old. During my exploration as a photographer, I didn't realize that I was slowly developing an interest in videography, video editing and graphic designing until I joined production teams and to grow into what I am today.
